PLEASE NOTE: If you are a serious collector and wish to receive a copy of our NEXT FOUR (4) LISTS please remit \$2.00 to me at the above P.O. address. I will set the lists out as an "inventory" is built up to have a good list-rather than following a fixed schedule and possibly turning out a "so-so" list. I think that the price is very reasonable and more competitive than lists published by other collectors and dealers. I will NOT be sending any more "free" lists in the future due to the high cost of printing and postage. Additionally, if you have any friends who collect American Military items please feel free to show, or lend, them this list-they just might find something they have been looking for their collection.

76. Captured Confederate Flag--the ultimate Confederate relic. This is one of the five Confederate unit flags captured by the 17th IN mounted Inf. at Macon, GA on April 20, 1865--the other four flags were forwarded through channels on April 25, 1865, to the War Department. Flag is marked in blue "UCs Grd's Made In England by some titled Ladies in 1864". (Upson County's Guards, Georgia State Guards, Georgia State Militia, not mustered into active Confederate Service like it's preceding organization--the Upson Cavalry, Company G, 12th Rept. GA State Guards.) The flag is one of three known original Confederate 2nd Pattern National Flags ("Stainless Banner") converted to 3rd Pattern National Flag by addition of red salt (one specimen is in the Alabama Department of Archives and History, and the other specimen, credited to 10th U.C. Reserves, is in "The Blockade Runner Museum", Carolina Beach, NC.) Flag measures 45" on the hoist by 70" on the fly. The canton is 27" square. Its white and blue are silk, and its red is a tight weave of cotton. One star is missing as is about 6 square inches of the blue St. Andrews Cross. The arms of the cross are 2 1/2" wide. There is no border between the canton and the field, there was no mast canvas or lead to the flag. The inscription "UCs Grd's Made In England by some titled Ladies in 1864" is written on the lower white edge of the cross on the reverse side of the flag in blue pencil or crayon. (The entire flag has been professionally restored by the Welter Studio, St. Paul, MN, by the silk netting and zig-zag sewing process: this will prevent further damage to the silk of the canton as well as properly positioning and holding the flag for display. A mast canvas has been added to allow vertical hanging of the flag from a horizontal flag pole for wall display). The white of the field is made of loose weave bunting (two pieces sewn together) with a few minor holes. The red end stripe is made of two pieces of red cotton (different color dye and weave of red of the canton) and tapers in width from 20" at the top edge to 19" at the bottom. Flag is entirely handmade. Flag was part of the famous Charles F. Gunther collection, was included in the 1899 Catalogue of the American War Museum and was purchased as part of the Gunther estate in 1920 by the Chicago Historical Society and traded to me in April 1976. Comes with documentation from the Society, a technical description and a drawing of the flag by H. Michael Madans, author of The Battle Flags Of The Confederate Army Of Tennessee and the volume of the Official Records dealing with Wilson's Cavalry raid to Macon. The 17th Indiana Mounted Infantry was a unit of Wilder's famous "Lightning Brigade" and was the advance element of Wilson's Cavalry Corps through Upson County, they rode 45 miles, fought five skirmishes, and captured Macon, GA on April 20, 1865. \$1750.00 (B&W Photos available at \$1.00)

77. U.S. Model 1864 SPRINGFIELD RIFLE-MUSKET (early type with M1855-1863 trigger guard and M1863 rear sight), nice solid but used stock, spots of pitting on iron furniture, heavy pitting around nipple/bolster breech area (date obscured but "V/E/ Eagle head" are clear); faint 1864 but sharp Eagle and "U.S./SPRINGFIELD" on lock plate. Has been bored smooth but otherwise regulation/standard. Has a Remo 1863 Ram-rod. Overall very good condition. \$245.00

#528—ZEPPELIN COMMEMORATIVE BADGE
(Bronze with white cloisonne, 1-7/8 inch/46.9 x 27.5 mm) for post-Hitler (note tiny swastikas)
German Zeppelin Day at The World Expos Century of Progress, Chicago, 1933. Excellent.
\$14.50.

#747—SOVIET RUSSIAN KGB IDENTIFICATION SHIELD (bronze with red and multi-color cloisonne, 3-3/16 x 1-5/8 inch—79.5 x 40.5 mm). From recently declassified British Intelligence sources, we have been able to obtain for our regular clients a very few of the only known authentic Soviet Russian Intelligence Identification badges of the notorious KGB (Komitet Gosudarstvennoi Bezopasnosti — formerly known as the Cheka, NKVD, NKGB and the MGB). From its inception, the KGB has been synonymous with “Revolutionary Justice”. Its power is awesome — being

the equivalent of all the combined U.S. Government State Security Services of the C.I.A., the F.B.I., the National Security Agency, and the Secret Service itself. It is quite likely that there will be no further future availability of this particular badge after our present stock is depleted. Therefore, we strongly urge you to place your order immediately, without delay, because we can not guarantee availability for any appreciable period of time (your funds for purchase will be immediately returned to you in the event that we are not able to supply at that time). Excellent — **\$48.50.**

#641 — GERMAN-AMERICAN FRIENDSHIP BADGE, 1933 (bronze with red, white, blue and black cloisonne on metallic-red circle, 1-1/16 inch/26.5 mm). A highly unusual badge, originally distributed at the Chicago World Exposition, by the German-American Bund, in support of the first successful National election of Adolph Hitler as Reich Chancellor in January of that year. Excellent — **\$18.50.**

Friendly Greetings to Both Old & New Friends !

The exciting world of historical military collectibles continues as strong as it has since the end of World War Two...an Era which will never be seen again; and an Era which marked the beginning of much of the modern world we see today. The desire to acquire actual, physical collectibles of the Old Era continues...

Since 1961, we have been serving collectors world-wide, maintaining our policy throughout the many years to provide only the very best quality collectibles which are available, in the most responsible and consistent manner possible. You may be sure that none of our products can compare with the flood of poor-quality imitations which are commonly found in the market these days.

Investment values for quality collectibles have always been good; and more and more people are collecting than ever before. Over-all market trends reflect this phenomenon, as more and more pieces become unavailable and prices increase correspondingly higher.

Throughout the many years, we have served collectors living in all parts of the world;and--as usual practice--we continue to seek friends and clients from any part of the world (any currency at prevailing bank exchange rates is fully acceptable).

We look forward to serving and hearing from you....
World-wide Guarantee Since 1961...

Sincerely yours,

Rebirth of European Medallic Art Industry!

An Extremely Unique Historical Art Medal

For nearly a half-Century now, the exquisitely designed Old Military Art Medals of Germany have been literally locked up and forgotten—due to the ironic circumstances directly caused by the last two Great World Wars of 1914/1918 and 1939/1945. The peculiar and special results to World-wide collectors are felt even in modern times. For example, World War II Military Art Medals were (and still are!) actually outlawed in modern-day Germany: — it is literally illegal to engage in collector activities involving any artifacts from World War II Era. Any trading whatsoever among collectors and dealers of such items is referred to as "Polizei-verboten" ("forbidden by police"); and offenders are commonly subject to expensive fines and arrest by Police Authorities. The wonderful Old Military Art Medals from Imperial Germany and World War I have fared hardly any better — as severe economic ravages, inflation, The Great Depression, and post-War military restrictions too were hardly conducive to any mentionable collecting activity either.

"Field Marshall Erwin"
Rommel Medal, 1941, by
Karl Goetz, (50 mm, 2 in.)

addition, a Registered Certificate of Authenticity accompanies each Historical Military Art Medal.

A Precious Gift — To Own And To Give

When you give an Historical Art Medal, you give a precious and valuable gift that is perfect for a birthday, for special holidays, for an anniversary, a birth, a marriage, or simply a special personal gift to be always remembered and cherished... the ideal gift to show that you truly care.

Scarcity and Demand Predicts An Exceptionally Bright Future

Karl Goetz Military Art Medals are next to impossible to locate. In both World Wars I and II, highly devastating German military reverses and economic chaos made any commercial collector distribution virtually impossible. After the Wars, Western Allied Military restrictive legislation prevented any further collector distribution or commercial activity involving German War-time Government Historical Medallic Art — and these very same laws were re-enacted, more or less intact, by the Federal Republic of Germany. The final effect has been that nearly all of the Historical Military Medal-

lic Art of Germany has not been available to collectors for upwards of seven decades — since World War II! Although no one can predict any Art Medal's future value, scarcity and demand are major factors in the determination of value. As the following mintage table indicates, the supply of the Historical Field Marshall Erwin Rommel Art Medal is exceptionally limited indeed: —

Solid GOLD, .999 fine, Proof, uncirculated, 100 only \$3,500.00
Solid SILVER, .900 fine, Proof, uncirculated, 500 only 297.50
Solid BRONZE, PURE, Proof, uncirculated, 1,000 only 97.50

Each Field Marshall Erwin Rommel Historical Art Medal is gem quality, individually inspected and protected with its own fitted presentation case of pure black velvet interior and Afrika-Korp red leatherette exterior — complete with Registered Certificate of Authenticity. Each purchase order will be accepted by the Mint on a strictly first-come-first-served basis (by envelope postal date mark).

A Wonderful Opportunity

To Own And Give A True Historical Collectible of Lasting Value

All collectors should take very serious note of this highly unique Historical Military Art Medal. In every respect, it meets all the criteria associated with very fine collectibles: — it's beauty is undeniable, it's condition is flawless. It's Mintage is limited...

Legal, free, international distribution of these fine Old German Military Medallic Art Pieces will continue to be available through the special efforts and offices of Delta International — through the free International Mail Services, which are protected and registered for the benefit of all national countries which are participants of the International Postal Union Service. And, this of course, includes the Federal Republic of Germany — as well as the entire Free World. When and if the German Courts rescind their unjust and unfair laws and practices which wrongly single out collectors — who have a right to enjoy their particular hobby just as much as any other person enjoys his or her own special hobby interests — distribution of the Old German Military Medallic Art pieces will again take place from German soil. In the meantime, special arrangements for the safe-keeping and eventual return of the old original dies is well assured, and — in fact — are an integral part of the World-wide distribution rights and privileges held by Delta International of Honolulu, Hawaii (U.S.A.).

#528—ZEPPELIN COMMEMORATIVE BADGE (Bronze with white cloisonne, 1-7/8 inch/46.9 x 27.5 mm) for post-Hitler (note tiny swastikas) German Zeppelin Day at The World Expos Century of Progress, Chicago, 1933. Excellent. **\$14.50.**

#747—SOVIET RUSSIAN KGB IDENTIFICATION SHIELD (bronze with red and multi-color cloisonne, 3-3/16 x 1-5/8 inch—79.5 x 40.5 mm). From recently declassified British Intelligence sources, we have been able to obtain for our regular clients a very few of the only known authentic Soviet Russian Intelligence Identification badges of the notorious KGB (Komitet Gosudarstvennoi Bezopasnosti — formerly known as the Cheka, NKVD, NKGB and the MGB). From its inception, the KGB has been synonymous with “Revolutionary Justice”. Its power is awesome — being

the equivalent of all the combined U.S. Government State Security Services of the C.I.A., the F.B.I., the National Security Agency, and the Secret Service itself. It is quite likely that there will be no further future availability of this particular badge after our present stock is depleted. Therefore, we strongly urge you to place your order immediately, without delay, because we can not guarantee availability for any appreciable period of time (your funds for purchase will be immediately returned to you in the event that we are not able to supply at that time). Excellent — **\$48.50.**

#641 — GERMAN-AMERICAN FRIENDSHIP BADGE, 1933 (bronze with red, white, blue and black cloisonne on metallic-red circle, 1-1/16 inch/26.5 mm). A highly unusual badge, originally distributed at the Chicago World Exposition, by the German-American Bund, in support of the first successful National election of Adolph Hitler as Reich Chancellor in January of that year. Excellent — **\$18.50.**

TERMS OF SALE: All items are as described and are original unless specifically described as a reproduction. I try to describe an item very critically so that any surprises should be pleasant ones. Purchaser pays all postage and insurance fees (including trades) so please include enough with your check/M.O./etc. Personal checks must clear before I ship so if you wish to expedite your order please pay with cashier's or treasurer's checks or money order. I have been collecting for about 17 years and buy-sell-trade to improve my collection so I am willing to trade--especially for items I need for my collection. I will answer trade correspondence as quickly as is possible. If any item is not satisfactory FOR ANY REASON, just return it within three days of receipt (in the same condition as you received it) and I will refund your money.

LAY-A-WAY: 20% down (non-refundable) and the balance paid in full within 90 days.

MINIMUM PURCHASE is \$5.00 for cash and \$50.00 for Lay-a-way

TRADE BY MAIL Write or call what you have to trade and I will cover "ground rules" so that everyone is happy.

If you call in an order and I do not receive your check within two weeks, I must assume that you have changed your mind and have reneged so I will release the item(s) for sale to other individuals.

If you are interested in writing or talking about those very few individuals with whom you have had a "bad experience" in buying/selling/trading I will be glad to share my few unpleasant dealings with you. If we all share we can protect ourselves from those few less than honest individuals who collect/deal in Civil War military items.

IF YOU ARE INTERESTED IN U.S. ARMY MANUALS FROM THE 1890's, World War One, World War Two, Modern (1946-1977) OR Military HISTORY BOOKS From the Revolution thru World War Two send a large self-addressed stamped envelope for a list of 100 to 200 titles.

If you are interested in United States Military Medals--including Federal, State and Society Medals and or Life Saving Medals send a large self-addressed stamped envelope. IF you want one SASE would suffice for both lists.

IF YOU ARE LOOKING FOR A CATALOGUE SPECIALIZING IN CIVIL WAR "IMAGES" write Alan G. NIEHEC P.O. Box 11320, Chicago, Illinois 60611. His list costs \$2.00 for four (4) issues. PAGE 12

For "TERMS OF SALE" and other Notes please see last page.
PLEASE NOTE: If you are a serious collector and wish to receive a copy of our NEXT FOUR (4) LISIS please remit \$2.00 to me at the above P.O. address. I will get the lists out as an "inventory" is built up to have a good list--rather than following a fixed schedule and possibly turning out a "so-so" list. I think that the price is very reasonable and more competitive than lists published by other collectors and dealers. I will NOT be sending any more "free" lists in the future due to the high cost of printing and postage. Additionally, if you have any friends who collect American Military items please feel free to show, or lend, them this list--they just might find something they have been looking for their collection.

76. Captured Confederate Flag--the ultimate Confederate relic. This is one of the five Confederate unit flags captured by the 17th IN mounted Inf. at Macon, GA on April 20, 1865--the other four flags were forwarded through channels on April 25, 1865, to the War Department. Flag is marked in blue "UCa Grd's Made in England by some titled Ladies in 1864". (Upson County's Guards, Georgia State Guards, Georgia State Militia, not mustered into active Confederate Service like its preceding organization--the Upson Cavalry, Company G, 12th Rept. GA State Guards.) The flag is one of three known original Confederate 2nd Pattern National Flags ("Stainless Banner") converted to 3rd Pattern National Flag by addition of red half (one specimen is in the Alabama Department of Archives and History, and the other specimen, credited to 10th U.C. Reserves, is in "The Blockade Runner Museum", Carolina Beach, NC.) Flag measures 45" on the hoist by 70" on the fly. The canton is 27" square its white and blue are silk, and its red is a tight weave of cotton. One star is missing as is about 6 square inches of the blue St. Andrews Cross. The arms of the cross are 2 1/2" wide. There is no border between the canton and the field, there was no mast canvas or lead to the flag. The inscription "UCa Grd's Made in England by some titled Ladies in 1864" is written on the lower white edge of the cross on the reverse side of the flag in blue pencil or crayon. (The entire flag has been professionally restored by the Welter Studio, St. Paul, MN, by the silk netting and zig-zag sewing process: this will prevent further damage to the silk of the canton as well as properly positioning and holding the flag for display. A mast canvas has been added to allow vertical hanging of the flag from a horizontal flag pole for wall display). The white of the field is made of loose weave bunting (two pieces sewn together) with a few minor holes. The red end stripe is made of two pieces of red cotton (different color dye and weave of red of the canton) and tapers in width from 20" at the top edge to 19" at the bottom. Flag is entirely handmade. Flag was part of the famous Charles F. Gunther collection, was included in the 1899 Catalogue of the American War Museum and was purchased as part of the Gunther estate in 1920 by the Chicago Historical Society and traded to me in April 1976. Comes with documentation from the Society, a technical description and a drawing of the flag by H. Michael Hadas, author of "The Battle Flags of the Confederate Army of Tennessee" and the volume of the Official Records dealing with Wilson's Cavalry raid to Macon. The 17th Indiana Mounted Infantry was a unit of Wilder's famous "Lightning Brigade" and was the advance element of Wilson's Cavalry Corps through Upson County, they rode 45 miles, fought five skirmishes, and captured Macon, GA on April 20, 1865. \$1750.00 (B&W Photos available at \$1.00)

77. U.S. Model 1864 SPRINGFIELD RIFLE-MUSKET (early type with M1855-1863 trigger guard and M1863 rear sight), nice solid but used stock, spots of pitting on iron furniture, heavy pitting around nipple/bolster breach area (date obscured but "V/E/ Eagle head" are clear); faint 1864 but sharp Eagle and "U.S./SPRINGFIELD" on lock plate. Has been bored smooth but otherwise regulation/standard. Has a Remco 1863 Rem-rod. Overall very good condition. \$245.00

78. U.S. M1840 NCO Sword, with leather Scabbard, INSCRIBED ON THE COUNTER-GUARD "Sgt. J.A. Leads/ Co. C / 7th Ct. Inf." blade is VG+ and an Ames Mfg. Co. 1862 sword. The leather scabbard is very tight on the blade (slightly shrunk) and has some surface cracking but is complete and original. Inscribed issue swords are very uncommon. \$195.00
79. Near MINT Civil War Union Canteen, U.S. Army QND issued, smooth shell body, standard pewter mouthpiece (no markings), with a tan-brown wool cover (rough "linsey-woolsey") which is 99.9% complete-has only three (3) very small (1/16") holes, no rust stains, complete with original sling (no rust stains, holes, or tears), stopper and iron chain. This is the very best specimen I have ever seen. \$65.00
80. Beautiful Civil War Officer's Belt Dirk with Scabbard. Overall length is 9 inches with a double edge blade 4 7/8 inches long and 1/2 inches wide (diamond cross section) retaining 90% of its original high polish finish. Beautiful rosewood handle with German Silver cross-guard, ring, and pommel cap. Scabbard is green velvet over cardboard with German Sitter throat and tip-connected by copper mesh wire. Missing the circular button on the throat. Belonged to LTC Charles H. Chandler, 6th Regiment Maine Volunteer Infantry. EXC \$75.00
81. Rare U.S. Navy Document-a handwritten report of Ammunition returned by Picket Boat No. 5 to the U.S.N Magazine Ft. Mifflin, Sept. 13, 1865, EXC \$3.00
82. Pair of excellent condition, square toe, Cuban heel Civil War "Wellington Pattern" calf boots-commonly privately procured by both mounted and foot soldiers. Boots stand 15 inches tall, with typical "heart shape" front (the top of which is about 1/2 inch higher than the "flat top" of the rear portion of the boots). Original wood peg construction visible inside and at the instep, contemporary repairs including half-soles with iron rivets, heels with square iron nails, and an external patch of leather sewn on the right side of the right boot to the rear of the toes. Has canvas "pull-on" loops sewn to inside. Each boot has a minor 1/8 inch long crack at folds in leather above heel at ankle bone height. Looks like they are about size 7. \$110.00
83. Rare 1850's and 1860's TRUMPET-appears to be of French manufacture-U.S. Army Trumpets were normally in the key of "F" and were originally issued in the Regular establishment to the Mounted Rifles and Cavalry while "Buxles" (usually key of "C") were issued to Dragoons, Light Artillery and Infantry.
